---

I'm having Mark reproduce the data tables that will be put up on the epaosc site. I noticed that some fields were left blank if the corresponding data was non-detect. Also, data is only highlighted if it first exceeded the 3x background rule. Thought that really applied more to Brenda and Michelle, so I'm having him omit the 3x background and just compare to EPA RSLs and LA RECAP (both Industrial). Just wanted to confirm that these tables will not have been formally reviewed and should be considered raw data tables.

Thanks,

**Jeff Wright, CHMM**

Jeff:

I have put up a epaosc site and have you added as someone that can modify the site. Please post pics, data tables, flexviewer link (under links) and anything else that appears to be appropriate.

The contact person for ERT is Greg Powell and I will be contacting him shortly.

Thanks
